BY MORGAN ROACH, NANCI SEGURA, AND  
JAMONT MATHEWS

# WHO AND WHY

- The Turkish people targeted the Armenians because the Armenians pressed for political reforms, calling for a constitutional government, the right to vote and an end to discriminatory practices solely because they were Christians.

# WHEN AND WHERE?

- It started in the year of 1915 and lasted until 3 till it ended in the year 1918.
- They did everything in their own country of Turkey

# WHAT AND HOW!

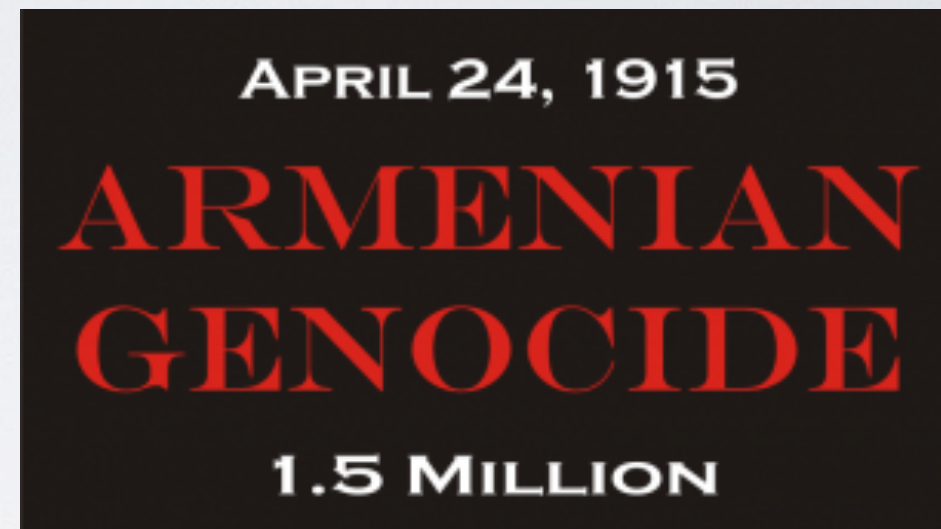

- The Turkish people forced deportation and massacre upon the Armenians.
- Turkish soldiers committed this awful act. They made large armies with police agents and Turkish volunteers.

# TOTAL LOSSES & OUR REACTION

- The total estimate for many people were killed during it is 1,500,000. Our reaction is that were horrified because all the Armenians wanted was more rights and got killed because of it. It's horrible.

# WHAT WE LEARNED

- We learned that genocide happens to all kinds of people and that it still exists that it has not o away. We also know that when some people don't see eye to eye, in some cases take it to the extreme like genocide.
