

# **Pol Pot Genocide**

By Clayton Saunders, Daniel Fairchild and  
Derrion Hughes

# Pol Pot's genocide

They killed 25% of population. They died from starvation, work or education. The was by Pol Pot and his Khmer rouge in 1979 in Cambodia.

# Political factors

In 1959 it received its independence from France. The Pol Pot became the leader of the communist party in 1962. After in 1970 the US invaded Cambodia to expel Vietnamese which called for the people to ally themselves with Po

# People he targeted

He targeted the Vietnamese, Chinese and Muslims. He wanted to get rid of the old society so he killed cops, soldiers, doctors. 2 million people died and 50% of the Chinese population living there.

# The survival tactics

They would ration food which they got one cup a day of rice. Do what is told and what you are ordered to do.

# Khmer Rouge

The was Pol Pot army it was mostly young men that made up his army. They used guerilla tactics

# Motives

Indonesia to host such meetings were it's concern about chinese influences, thus it's desire not to Vietnam, which it perceived to a Bulwark against China

# Response of other countries

Vietnamese had a full scale on invasion in the Khmer Rouge. Vietnamese installed a puppet government.

# Preventable

In Cambodia during the Genocide, something that is definitely preventable is diseases such as measles and endemic

# Effects on Perpetrators, victims and

The victims of the Genocide are dead or has lost their family members and are alone.

Perpetrators had an illness of Mentally abnormal maternal Filicide is a rare horrifying event

**Perpetrators**

# Country Today

Fugitive General Thong Sarath arrested in Vietnam.

Australia takes ownership of letter that lies about Cambodia

UK Study warns of rubber markets Impacts on Local Wildlife.

# Geographic Factor

Right next to Vietnam in which the U.S. were attacked Vietnam from Cambodia. To be plagued by corruption and incompetence, also lost American support
