

the holocaust

the germans were nazis and they started this crap

the holocaust took place in europe

the germans captured jews, tortured them and killed them. then burned there bodies

this started january 30 1933 and ended may 8 1945

the nazi holocaust

the holocaust started with the rise of the nazist party whose head was HITLER

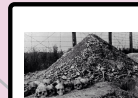

the total losses in the holocaust is 5,830,000

hitler felt that all of germany's problems were caused by the jews .

i learned that the germans started this cause they said the jews were the reason for the problems in germany.

my reaction to the holocaust is that 5,830,000 is too many people dead. like i couldnt sleep if i was apart of killing 5 million people.
