

Control methods

By: Victoria O'Neal and Bryana Rhodes

What Stalin controlled

- Monitored telephone lines, read others mail, and planted informers everywhere
- Controlled all newspapers, radio, motion pictures, and sources of information
- Propaganda

Economy

- Command economy: the government made all Economic Decision
- Limited the production of consumer goods: people suffered shortages of housing, food, and clothing

Agricultural revolution

- Collective farms: seize over 25 million privately owned farms
- 5-10 million peasants died because of stalins agricultural revolution
-
